

An Introductory to Celtic Shamanism

With Renown Contemporary Grandmother Shaman Nancy Dancing Light Sherwood and David Cameron

During this 5 session experiential learning weekend, we will refer to and deepen our connection to the elements of the Celtic Wheel. We will explore the Celtic belief systems by journeying (Immram), divination, visualization, sharing cultural legends, and much more.. We will learn the Celtic teachings about the marriage of the Divine Feminine and Masculine and be given opportunity to retrieve the elements of our Ancestral Souls. The gatekeepers of this course believe all life is sacred and that it is important to embody this belief by creating rituals and practices that address the imbalances on Earth in our modern times. Inspire and be inspired by joining the Celtic Wheel.
